

# CBA Rabbitry SALES AGREEMENT

## Sales Policy

*CBA Rabbitry's adoption policies, health guarantee, and breeding restrictions.*

**Please Read Our policy Before purchasing or claiming a bunny. We love each and every bunny in our rabbitry and we want the best for all of them.**

### Non Refundable

To reserve a bunny, full payment including shipping is due. No refunds will be given unless an ailment/death occurs while under our care. If transportation needs to be arranged slightly later, a 50% deposit is required to reserve the rabbit, with the remaining 50% due once transportation is arranged.

If transportation is not arranged within two (2) weeks of the scheduled pickup date, a boarding fee of \$5 per day will be charged starting from the pickup date unless special circumstances have been discussed.

All payments are non-refundable. Be sure you are ready and committed to welcome your bunny into your family! You cannot switch reservations to a different bunny once you reserve.

### Health Guarantee

Our animals are healthy at the time of sale. Once they leave our facility, we are not held liable for any physical harm, illness, accidents, or genetic issues of any kind.

We are not liable for any loss of your rabbit during transport unless it is proven that the cause was due to our handling or responsibility. In such cases, we will provide a replacement rabbit at equal or similar value.

(Optional) We have an additional health guarantee policy that can only be purchased during the time your reservation is made. Please read in depth to fully understand what this covers. Our health guarantee is \$50. This remains valid for a duration of 180 days from the birth date of the rabbit. If your rabbit passes away from a **genetic issue ONLY** and is proven to be a genetic issue by a licensed **exotic** veterinarian (they must be an exotic vet), we will issue a refund for the purchase price of the rabbit. The exotic vet will need to email a letter with a header from their vet office stating the genetic reason of death. Liver torsion and GI stasis are NOT covered.

### 8-Week Policy

For the lifelong health and proper development of our bunnies, we only transport when the bunny is at least 8 weeks old. Changes in appearance at this stage are a normal part of healthy growth and development. The bunny you receive is the exact same bunny you selected.

## Breeding Restriction Policy

To protect animal welfare, pedigree integrity, and the reputation of our rabbitry, all rabbits purchased from this rabbitry are sold strictly as companion pets only. **Breeding is strictly prohibited** without the prior written authorization from rabbitry. Any violation of this policy shall constitute a material breach of contract and rabbitry will demand the payment of liquidated damages in the amount of **USD \$3000**, which both parties acknowledge as a reasonable estimate of damages and not a penalty. If you are interested in breeding our rabbit please purchase and obtain the authorization from us.

## Payment

By proceeding with payment via Venmo, Zelle, or PayPal, the buyer confirms that they have read, understood, and agreed to all of the above sales policies.
